About Craftlands Workshope

From the out-there imagination behind the Shoppe Keep series comes a brand-new fantasy business adventure set in the clouds.

Craft your way to the top

A hastily scribbled note on Allcraft's door means you're now the proud owner of a dilapidated workshope. You know you're going to have to utilise your alchemy, cookery and blacksmith skills to get the sad old place back on its feet.

Sell your wares

It's all very well knowing how to craft items but your wares won't make you money gathering dust on your workshope floor. Luckily your slightly creepy acquaintances seem to want to help you out. Your own personal air skip? They're either unusually generous or they want something in return. Time will tell.

Master your crafts

The more you explore these outlandish islands, the more you realise things aren't as they appear. Becoming a master of three noble crafts and making a success of the workshope Allcraft kindly bequeathed you seemed like a worthy goal. But...it's starting to feel like your achievements are merely part of a much bigger story. Master every recipe and build every blueprint to fashion a key that unlocks an unknown realm.

Oh, and did we mention you can also pet a dog? What do you get for it? Nothing but their unconditional love. Why, what did you expect?
