### About Tracks – The Train Set Game

Jump aboard the nostalgia-train! Tracks is the ultimate wooden train game. Construct train sets without rules, deliver cargo, and transport commuting passengers. Build an elaborate railway system and then ride it in first person, from the train cab.

Players can create their own elaborate sets in free-play mode, or they can take on objectives, such as efficiently but safely delivering heavy cargo. The train's weight is simulated, meaning that the gameplay dynamic is altered for different objectives.
